ALMOG ENGINEERING LIMITED

We are pleased to introduce to you Almog Engineering Limited and to present a brief of our activities and proven track record in Nigeria since we commenced operations in the country.

Almog Engineering Limited is a company founded and built on a tripod of reliability, quality and cost effectiveness. These objectives have been amply demonstrated in all our engagements from inception.

Almog Engineering Limited specialises in Mechanical, Electrical and Plumbing installations, Renovation, Rehabilitation and Facilities maintenance works.

Over the years and at various locations across the country, we have successfully executed landmark projects which includes High-rise offices and residential buildings, industrial and commercial complexes for public and private clients.

We have also carried out sophisticated Electrical and Mechanical installations in hospitals and reputable Scientific Research Institutions using modern, technologically advanced and highly sensitive equipment. We have equally and successfully carried out turnkey renovation works for hotels, banks and several other clients.

We also provide value engineering service, design, workshop drawing, As-built drawing, in technical partnership with international reputable electrical and mechanical design firms as well as world leading manufacturers of electrical panels, BMS, fire detections system, A/C etc

In view of our vast experience in procurement of high quality and durable materials, we are in close collaboration and association with leading manufacturers and suppliers of advanced technology locally and around the world. From this position, we constantly update and advice our clients on their choices and ensure technical and service backup after every installation.

We rely on the quality of our workforce which includes highly trained and experienced Engineers, Project managers, Supervisors, Foremen, Technicians and the best of local Tradesmen to enable us achieve the delivery of various projects satisfactorily and on time.

We pride ourselves as employer of choice, as we have been able to keep most of our valued employees satisfied over a long period.

It is our hope that this brief introduction will give you a first-hand insight into our organisation, its activities and its capabilities.
